Paradigm®

Fireproof Backboxes

Paradigm and Paradigm Reference in-wall and in-ceiling applications can now be spec'd for multi-dwelling unit applications.

Paradigm backboxes meet the following:
• 'One-Hour Fire-Rating' requirements
• 'For Use in Air Handling Spaces' requirements

Paradigm backboxes will contain fire, gas, smoke and heat within the enclosure for up to one hour.

Paradigm backboxes also meet the following codes:
ASTM E119-98 Vertical
ASTM E119-98 Horizontal
UBC 7-1
UL 2043
CAN/ULC S101-M89

Backbox Features:

• Corrosion-resistant metal;

• Insulated lining;

• Features 10 db of acoustic isolation between room boundaries;

• Integrated safety tab on the back of the cabinet accomodates installer-supplied safety cable;

• Standard top-surface 3/8″ knockouts for conduit set-screw connector. Positioning of knockouts allows for vertical or horizontal installs.

• Pre-drilled mounting holes surround flange for easy installation;

• All boxes fit 12″, 16″ and 24″ stud bays.
