

You're tall. Or not so tall. You're funny. Or maybe shy. You live in a condo. Work in the city. Your room is a dorm. You're **young**. Or maybe not so young. You can't live without your phone and your head's **in the cloud**. You love **rock** but not rap. You love **rap** but not rock. House and **techno** are more your deal. You're a **Top 100** fan. You're rebellious and rock **indie**. You listen to **jazz**. **Classical** moves you. You practice **yoga**. You drive fast. You work out. Or work late. Or work too much. You're a hard core **gamer** playing into the night. A **tv** addict who loves **take-out**. Weekends you have **friends** over. You play it **loud**. You stay up **late**, sometimes. Sometimes you're a weekend couch potato sucking up miles of megs watching **movies**. Our **MilleniaOne CT music** and **movie system** is for all of it! No matter **who** you are or **where** you live, **what** you like or what **you do**, we want to be:

The Official Sound of **YOU**[™]

Ideal match for
Apple TV and
AirPort Express

Step Up to reference quality with the **MilleniaOne CT** 2.1 Audio/Multimedia System

Our Paradigm Reference MilleniaOne CT is a step-up from its cousin the Millenia CT in both sonic performance and build quality. The speakers are the same ones that recently won Sound & Vision's **Product of the Year**. Like its cousin, MilleniaOne CT is a fully powered system, no receiver required, but that's where the similarities end. This system is a reference product: high-quality cast-aluminum speaker cabinets and extruded aluminum subwoofer housing, patented corrugated surround technology on the subwoofer, refined motor/magnet structures tweaked for performance on the drivers. Even the push-style gold-plated binding posts are a step up. The low-profile subwoofer is designed for versatility: stand it up, lay it down or hide it under a couch without affecting sound quality. Finally, for those wondering, the initials 'CT' stand for Compact Theater! Paradigm excels at producing room-filling reference sound in a compact format.

MilleniaOne CT™

State-of-the-art performance in a quick and easy setup. A superb alternative to a soundbar, offering extraordinary stereo separation and wide off-axis sound. Deep, room-shaking, musical bass.

State-of-the-Art Proprietary Electronics Platform

Paradigm's hands-on approach to design and technology is made possible through our world-class in-house R&D, testing and manufacturing facilities. Take the proprietary digital signal processing design in our amplifier. It monitors the line current and voltage so that long-term average output power remains continuous. Sophisticated mathematical algorithms shape frequency response, ensuring accurate, consistent and musical bass without distortion, even when the system is playing at a loud level.

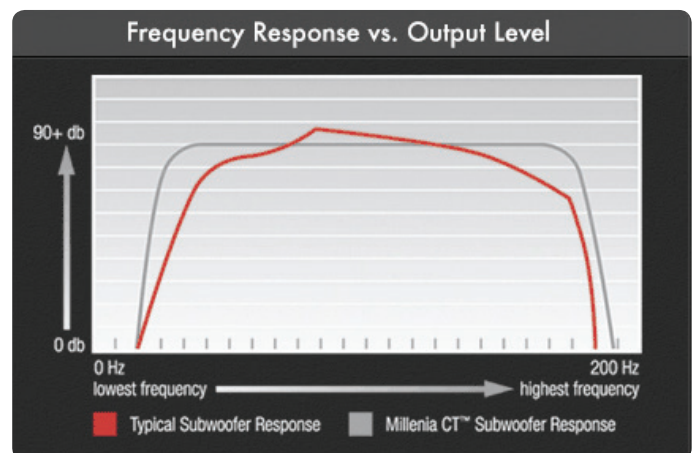

State-of-the-Art Acoustic Platform

Drivers are purpose-designed to match our electronics platform and software algorithms are written by our engineers in-house to suit the application. State-of-the-art sound through the use of the highest quality component parts.

Special Features in the DSP Preamp

Decodes Dolby Digital (anything from 1.0 up to 5.1) and downmixes/remixes the signal for 2.1. A built-in custom loudness compensation feature based on established equal loudness contours delivers a more natural auditory experience

when the system is playing at lower volumes. The subwoofer features smooth limiting, minimizing the potential for audible distortion and ensuring musical bass at higher output — similar in nature to the technology used in other Paradigm subwoofers. MilleniaOne CT speakers also boast a unique limiting feature that minimizes distortion and prevents muddiness of sound when the system is playing at high output.

Everything you need for a quick setup is in the box:

2 speakers with pure-aluminum domes and cones. Adjustable shelf/table stands and tiltable wall-mounting brackets.

1 subwoofer with removable cradle (can be placed vertically on stand or horizontally on the supplied feet).

Push-style gold-plated binding posts for easy hook-up.

Control box for instant connection to your TV and accessories

1 remote control with long-life lithium battery

6 cables: 1 x 6' Power, 6' Optical, 3.5-mm, 10' control box, 2 x 15' speaker

Speakers can be wall-mounted with brackets supplied.

Speakers

1" S-PAL™ Satin-Anodized Pure-Aluminum Domes with high-temperature voice coils.

4" S-PAL™ Satin-Anodized Pure-Aluminum Bass/Midrange Cones. High-temperature voice coils. High-quality rubber surrounds with superb damping properties and excellent flexibility promote extended cone movement.

High-Quality Cast-Aluminum Speaker Enclosures and integrated baffle and chassis allow for larger, more powerful drivers than typical in a system of this size.

Subwoofer

Unique 14" x 3" High-Aspect Ratio Monocoque Cone Design with patented corrugated surround technology in a sealed extruded-aluminum enclosure. Bass is deep and rich with incredible room-shaking power. (Patent Number D654,479S).

Built-In Ultra-Class D™ Amplifier

50 watts RMS x 2 satellite speakers. 100 watts RMS subwoofer. System Peak Power of 600 watts. Includes Paradigm's proprietary Digital Signal Processing design so that no matter how loud the subwoofer is playing, sound is deep, clean and musical.

TECHNICAL SPECIFICATIONS

MilleniaOne CT Speakers

Design	2-driver, 2-way ported enclosures with integrated baffle and chassis. Low-diffraction grilles maximize imaging and ensure smooth dispersion. Cast-aluminum cabinet construction.	
Crossover	3rd-order electro-acoustic at 2.4 kHz	
High-Frequency Driver	25-mm (1 in) S-PAL™ satin-anodized pure-aluminum dome	
Bass / Midrange Driver	102-mm (4 in) S-PAL™ satin-anodized pure-aluminum cone	
Low-Frequency Extension*	76 Hz (DIN)	
Frequency Response	<i>On-Axis</i> <i>30° Off-Axis</i>	±2 dB 120 Hz – 20 kHz ±2 dB 120 Hz – 18 kHz
Sensitivity – Room / Anechoic	89 dB / 86 dB	
H x W x D (including stand)	7-3/4 in x 4-1/2 in x 5-3/4 in / 19.5 cm x 11.5 cm x 14.5 cm	
Weight (unpacked, including stand / hardware)	6.5 lb each / 2.96 kg	
Finish	Black Gloss	
Accessories (included)	Tabletop / shelf stands and wall-mounting brackets.	

† With typical program source, provided the amplifier clips no more than 10% of the time.

MilleniaOne CT Powered Subwoofer

Design	Single driver, sealed design, built-in 3-channel amplifier. Extruded aluminum subwoofer housing.	
Amplifier Design: High-current, Discrete Output	Built-in 3-channel Ultra-Class-D™ amplifier: 50 watts RMS x 2 satellite speakers. 100 watts RMS subwoofer. System Peak Power of 600 watts.	
Amplifier Features	Auto-On / Standby, soft clipping	
Bass Driver	Monocoque 356-mm x 76-mm (14 in x 3 in) high-aspect ratio cone design, patented corrugated Santoprene® surround†, 38-mm (1-1/2 in) voice-coil.	
Low-Frequency Extension*	26 Hz (DIN)	
Subwoofer Cut-Off Frequency	150 Hz fixed	
Input	Optical digital; 3.5-mm auxiliary analog.	
H x W x D (cradle adds 3/4 in / 1.9 cm to height)**	14 in x 5 in x 12 in / 35.6 cm x 12.0 cm x 30.5 cm	
Weight (unpacked, stand adds 0.3 kg / 0.6 lb)	14.4 lb / 6.5 kg	
Finish	Textured Black	

*DIN 45 500. Indicates -3 dB in a typical listening room. **Feet add 1 in / 2.5 cm to height in horizontal position. † Patent No.: US D654,479 S

1 Year Limited Warranty
