Special Edition (SE) Series

"... they don't just sound like far more expensive products; they also look like 'em. ... mastered the frequency spectrum from top to bottom. ... belongs on anyone's short list of affordable yet high-performing speakers."

– Mark Fleischman, Home Theater
Not buying a new home or the car of your dreams right now? Staying home with friends and family—connecting and being entertained? When it comes to home entertainment, if you're looking for a well-priced mix of aesthetics and performance, the Paradigm SE Series is the perfect choice. Designed and engineered to be a complete music and home theater solution!

**STYLE:** Soft edges and clean lines! Even the subwoofer has a compact 'easy-to-live-with' footprint … our smallest subwoofer yet!

**PERFORMANCE:** Combines award-winning technology from our Monitor Series and high-end 'Reference' Studio Series … the best of both with the emphasis on affordability.

**QUALITY:** Real wood veneer cabinets at these prices? Unheard of. But we delivered!

**VALUE:** Paradigm® is the #1 Brand in affordable high-end performance. And has been for more than 25 years.

---

**Paradigm® SE 1** beats out boutique brand speakers costing eight times as much. - CE Pro
Deep Impact

The SE Sub is a continuation of Paradigm’s multi-year R&D effort to achieve exceptional bass performance from a compact footprint. The sonic benefits of Paradigm’s digital signal processing, meanwhile, render cabinets and an unbelievable price point – what’s not to love!

Control Facilities:
- Auto On/Off
- Subwoofer Level
- Subwoofer Cut-Off Frequency (Continuously variable 35 Hz – 150 Hz; Bypass Option)
- Sub/Sat Phase Alignment (Continuously variable 0° – 180°)
- USB Port/PBK Interface

Input Facilities:
- Line-level Input

Advanced High-Power Class-D™ Amplifier delivers massive amounts of high-current power with internal diaphragm VOM with Dynamic Peak/1000 with RMS stabilized.

Advanced Long-Travel Suspension including Nomex® Spider and Oversize Magnet Structure promote extended cone excursion while also maintaining superb control over cone movement. 1-3/8-inch (33 mm) 4-layer voice coil.

High-Pressure Die-Cast Aluminum Chassis with AVS™ Airflow Ventilation System Cooling. Large built-in ribs increase the heat dissipation surface providing forced air cooling during large musical transients. Rigid aluminum controls flexing and ringing and since aluminum is non-magnetic, also eliminates stray magnetic loss.

Paradigm’s Proprietary Digital Signal Processing (DSP) Design boasts sophisticated algorithms which “shape” frequency response, ensuring accurate, consistent and musical bass performance without audible distortion, even when the SE Sub is playing at its loudest levels (see graph).

Typical Subwoofer Response

Paradigm’s Proprietary Digital Signal Processing (DSP) Design

SE Sub

Simplicity and elegance in form and function…the SE Sub is king of affordable compact lifestyle subwoofers… and don’t underestimate the power behind the throne… the royal may be small, but with 900 watts Dynamic Peak power and 300 watts RMS Sustained, it can hold court with the best of them!

### Design
- Single high excursion driver, configurable down-firing/front-firing driver, sealed enclosure, patented bass reflex slot, built-in Ultra-Class-D™ power amplifier, USB port/PBK Interface
- Design: High Current, Discrete Output
- Amplifier Design Features: High Current, Discrete Output
- Subwoofer Cut-Off Frequency: 25 Hz
- Sub/Sat Phase Alignment: Variable 35 Hz – 150 Hz; Bypass option
- Line-Level Inputs: RCA (L/R-Mono) for L/R Line-Out or Sub-Out/LFE-Out of receiver/processor or other line-level source
- Height, Width, Depth (includes feet; depth includes grille and amplifier): 29.1 cm x 27.9 cm x 27.9 cm
- Weight (unpacked): 6.4 kg/14.1 lb
- Finish: Black Gloss, Rosenut
